### Re-Think It introduces eco-friendly tableware

Re-Think It Inc. recently introduced its line of Dandelion Earth Friendly Goods including its children's tableware made from corn. The ReUsable tableware made from corn is in response to concerns about harmful chemicals found in many plastic utensils.

Dandelion Earth Friendly Goods line of ReUsable tableware is made primarily from renewable and sustainable corn-based bioplastic which is free of Bisphenol A and Phthalates, and offers an inspired alternative to conventional plastic.

"Corn PLA requires significantly less fossil resources and generates far fewer greenhouse gases than normal plastic," says Amy Shumway of Re-Think It, Inc. "The corn used in Dandelion's ReUsables is the most common type of corn grown in the United States, and it is primarily used to feed animals and make artificial sweeteners.

Taking it a step further, Dandelion Earth Friendly Goods uses innovative, eco-friendly packaging made from 100 percent recycled paperboard and custom designed to use a minimal amount of materials.

The ReUsables include toddler divided plates, bowls, and utensils. Each ReUsable is durable and lightweight for
